

NOTES:

1. All lumber shall be construction heart redwood, no loose knots.
2. Tight board fence may alternate panels when approved by city engineer.
3. These fences shall be used for tract boundary fence except where development borders a waterway or drainage channel, or adjoins a major City street, unless otherwise detailed on improvement plans.
4. Bottom 3' of post shall be treated with approved wood preservative.
5. Fencing which extends beyond front or side setback lines shall be reduced in height to 3'-6".
